**BACK**

**SECTION A-A (centreline)**

cut faces shaded: front to the left

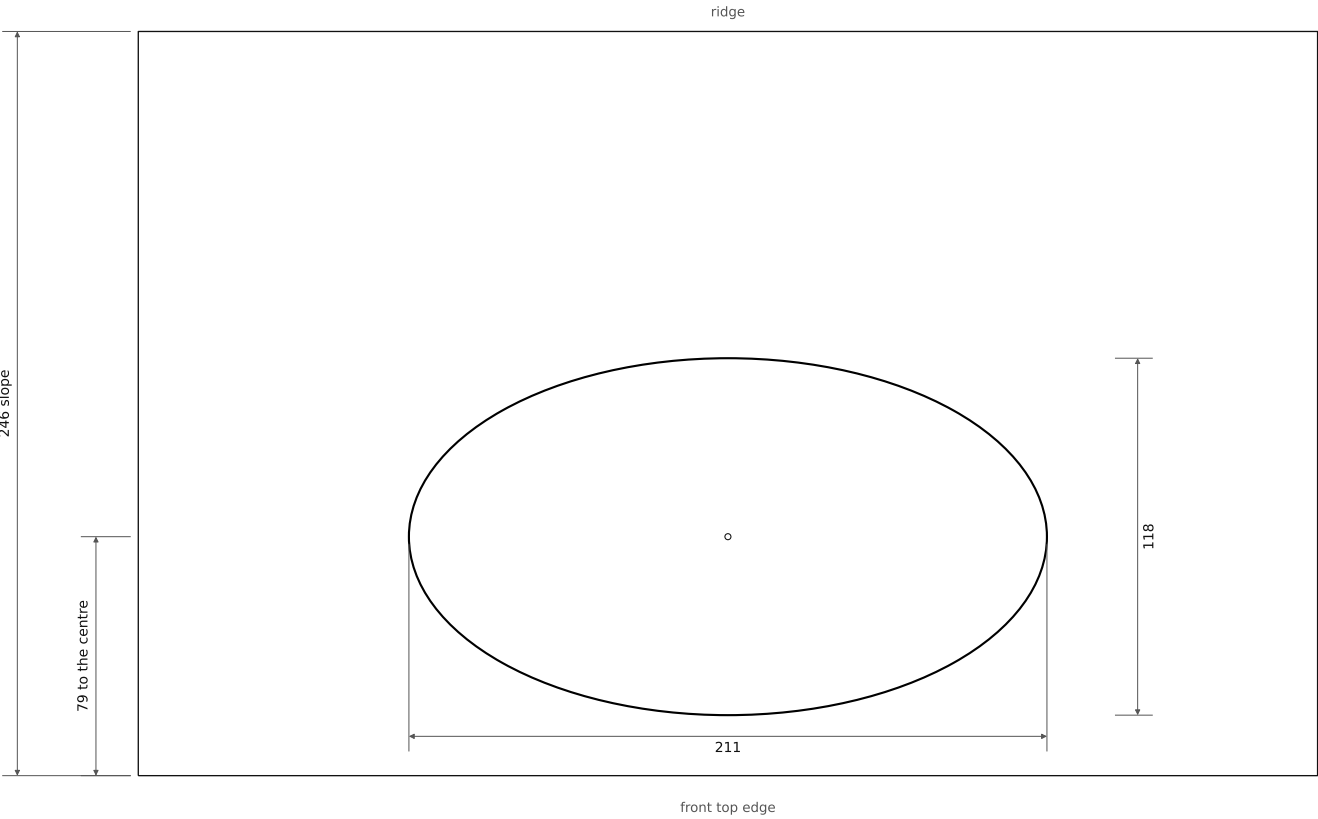

**earmilk floorstander**

General arrangement

1:5 mm third angle 2026-10-04 from fab/params.py

Proposals (not Decisions): butt-jointed 18 mm birch, the mid chamber, the brace, the groove, the split. Driver cutouts are for the shortlisted drivers (fab/drivers.json): re-cut for others.

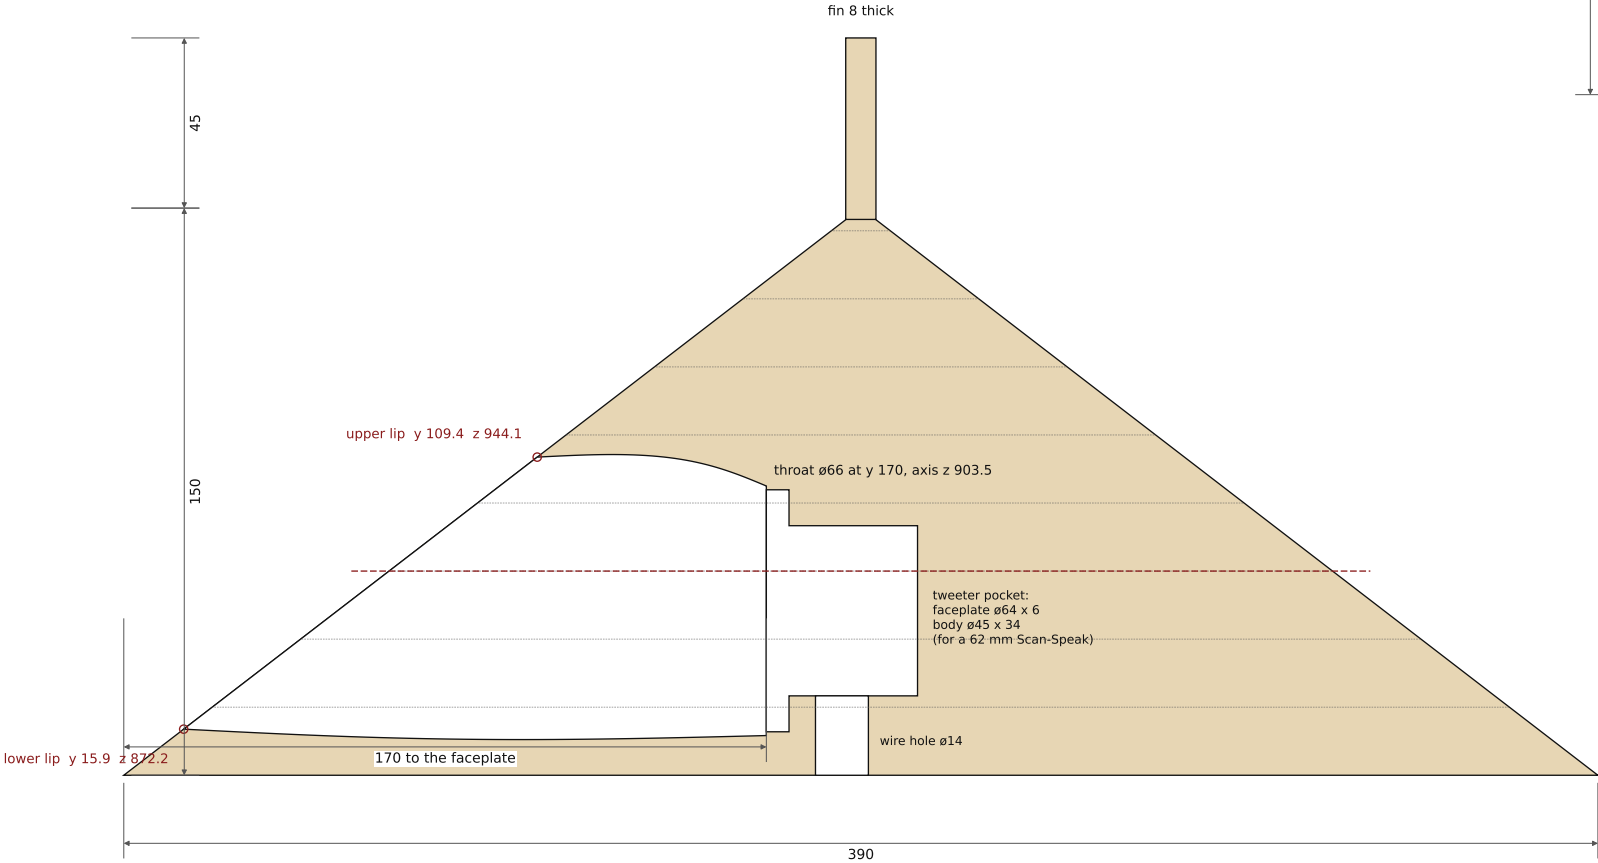

THE MOUTH, SEEN SQUARE TO THE FRONT SLOPE (1:2.5)

11 layers of 18 mm birch, glued, top trimmed

split z 914: mill each half from its open side

GABLE SECTION ON THE CENTRELINE (1:2)

Bowl surface: one smooth loft from the mouth ellipse to the throat circle; the floor sags 3 below the lip-to-throat chord, the ceiling arches 6 above it.

The bowl is spec (README, geometry.md); its surface is the same loft the renders draw. The pocket and the split are proposals.
